

PROFESSIONAL SUMMARY

Results-driven professional with career-long record of strategic planning, system administration, and cybersecurity engineering success

Proven talent for aligning business strategy and objectives with established cybersecurity and project management paradigms to achieve maximum operational impacts. Detail and success-focused professional with the ability to lead the planning, development, and implementation of security initiatives, operate with a strong focus on guaranteeing the security of computer systems and networks, and oversee and direct a wide range of key cybersecurity activities. Exceptionally dedicated professional with keen interpersonal, communication, and organizational skills, as well as extensive technical expertise.

CORE COMPETENCIES

- Cybersecurity Engineering
- Risk Management
- Information Security
- Leadership & Collaboration
- Relationship Management
- Project Management
- Disaster Recovery
- Incident Response
- Data Protection
- Patch Management
- Systems Administration
- Vulnerability Management
- Technology Solutions
- Critical Thinking
- Problem-Solving

PROFESSIONAL EXPERIENCE

MULTICARE HEALTH SYSTEM, TACOMA, WA, OCTOBER 2022 TO PRESENT

MANAGER, VULNERABILITY MANAGEMENT & THREAT INTELLIGENCE

- Managed the Vulnerability Management and Threat Intelligence team, overseeing all aspects of the program
- Implemented a comprehensive vulnerability management program from the ground up, including defining policies and procedures, selecting tools, and establishing workflows.
- Successfully reduced vulnerability risk by 60% within the first 6 months of standing up the program, and achieved an 11% reduction rate bi-weekly thereafter.
- Enhanced the security posture of the organization by providing increased visibility into vulnerabilities and potential threats.
- Collaborated with cross-functional teams to develop and implement remediation plans for identified vulnerabilities and threats.
- Maintained up-to-date knowledge of emerging threats and vulnerabilities, and applied that knowledge to continuously improve the vulnerability management program.
- Conducted regular vulnerability scans, risk assessments, and penetration testing to identify and mitigate potential security risks.
- Developed and delivered regular reports to senior leadership, providing insights into the effectiveness of the vulnerability management program and highlighting any areas requiring additional attention.
- Demonstrated strong leadership skills, providing guidance, mentorship, and coaching to team members to support their professional development and growth.

WHIRLPOOL CORPORATION, BENTON HARBOR, MI, OCTOBER 2019 TO AUGUST 2022

SENIOR CYBERSECURITY ANALYST

- Received rapid promotions to this position in recognition of extensive efforts and operations in previous roles.
- Closely collaborate and communicate with senior personnel and other team members on a daily basis to perform a wide range of cybersecurity-related activities.
- Spearheaded the design, development, and implementation of the company's vulnerability management program.
- Served in an integral role by effectively employing multiple SIEMs to provide KPIs to leadership and departments.
- Chart the creation and preparation of key cybersecurity documents and reports, including security assessment reports, system security plans, disaster recovery plans, and more.
- Contribute extensively to the creation and development of security policies and plans for specific issues and problems.
- Perform extensive cybersecurity assessments to search for and identify potential gaps and risks to ensure success.
- Effectively managed and deployed EDR application across the enterprise.
- Headed the digital forensics for the legal department on highly confidential cases.

BETHEL UNIVERSITY, MISHAWAKA, IN, AUGUST TO OCTOBER 2019

SYSTEMS ADMINISTRATOR

- Leveraged extensive expertise in system administration on a large scale while operating in this position.
- Orchestrated the redesign and revamp of the university's disaster recovery plan to increase resiliency and data protection.
- Drove a significant reduction in server infrastructure and a decrease in costs for the university and ensure success.
- Operated with a strong and ongoing focus on improving and enhancing the patch management program while guaranteeing all servers were compliant.
- Dealt with, resolved, and addressed a wide range of technical problems and issues in a swift and effective manner.
- Oversaw and led all aspects of technical projects from inception to completion in collaboration with other personnel.

VERO ORTHOPEDICS & VERO NEUROLOGY, VERO BEACH, FL, DECEMBER 2015 TO AUGUST 2019

SYSTEMS ADMINISTRATOR

- Obtained a wide range of new skills and abilities while serving in this role, including IT support and system administration.
- Played a key role by presiding over and maintaining 200 mixed assets, including Windows and Linux devices.
- Effectively implemented major application upgrades for their EMR platform and provided application support.
- Led the effective implementation of multi-factor authentication within the company through utilization of expertise.
- Carried out the ongoing evaluation and assessment of system performance and implemented corrective actions.
- Administered the general troubleshooting, backup, and repair of various computer systems and peripheral equipment.

EDUCATION AND CREDENTIALS

BACHELOR OF SCIENCE (B.SC.) IN CYBERSECURITY, 2018

Indian River State College, Fort Pierce, Florida

FOCUS IN COMPUTER SCIENCE, 2015

Indiana University, Bloomington, Indiana

CERTIFICATES

- [Certified Information Systems Security Professional \(CISSP\) – Issued January 2024](#)
- [Metasploit Pro Specialist – Issued March 2022](#)

TECHNICAL EXPERTISE

- **Vulnerability Assessment:** InsightVM, Nessus, Green Bone, Tanium Comply
- **EDR Platforms:** CrowdStrike, SentinelOne, Cylance, BitDefender
- **Offensive Security:** Kali Linux, Metasploit, BurpSuite, Shodan, Wireshark
- **SIEM:** Splunk Enterprise, Devo, Log Rhythm, Graylog
- **Systems Administration:** Windows, Linux, Mac
- **Network Management:** Meraki, UniFi, pfSense, Sonic Wall, Cisco, TP - Link
- **KPIs & Databases:** Grafana, DataStudios, Crystal Reports, MySQL, BigQuery
- **EMR:** NextGen, eClinicalWorks, Allscripts
- **Programming:** Python, C++, Java

ADDITIONAL INFORMATION

Interests: Music (guitar/piano), Technology (Home Lab Projects), Traveling, Gym, Pool, Games (card, board, video), and Spending time with Family, Friends, and Dog.
